DETAILED ACTION

Notice of Informal Examiner's Amendment

"Conned" (page 9, line 22) has been changed to – connected --.

Drawings

1. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they do not include the following reference sign(s) mentioned in the description: #42 as per page 8, line 4. A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.
2. The drawings are objected to because #56 and 58 in figs 5 and 6 are reversed from the other figures. A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claim 1 is rejected under 35 U.S.C. 102(b) as being clearly anticipated by Clarke (USP 512,363).
5. Claim 6 is rejected under 35 U.S.C. 102(b) as being anticipated by GB 581,267. '267 discloses flexible sleeve (the portion of the rubber sheath 11 which extends from

the ferrule 16 toward the bristles 12) which would be capable of collecting at least some paint and further including a skirt (the remainder of the sheath) connected to the sleeve and which is movable between a first position (fig 2) to a second position (fig 1).

Allowable Subject Matter

6. Claims 2-5 and 7-10 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The patent to Santana is pertinent to brush covers and the other patents are pertinent to drip catchers.
